Principal's Message

Dear parents and students

As I walk down the hallways of the school every day, I can hear the chatter of eager minds, the shouts of excitement from the victorious athletes, the thump of dancer's feet & the sound of melodious voices harmonizing. The perpetual energy, movement & enthusiasm permeate the atmosphere at RV. We are school with a difference. We value individualism, creativity and innovation and strive to nurture them in our students.

The School's genuine concern ensures student's emotional growth along with intellectual excellence. This empowers them to develop their self-esteem, self-awareness and self-confidence. Sharing ideas, analyzing situations and expressing them confidently are essential skills which are honed here, through Experiential Learning.

While studying at the school, the students will be groomed to become confident, articulate and enlightened young citizen, ready to step into global society with dignity, honour and integrity.

We believe in giving our students strong values along with a set of wings which may carry them far and wide. In other words, our students are equipped to face the challenges of the rapidly changing world.

We rear students who are creatively curious and strive to experiment & innovate new things on both academic and non-academic fronts. Our pedagogy is child – centric with emphasis on inquiry and project-based learning. We treasure dynamism and deem that one should be well prepared to adapt to the global scenario and work on his learning accordingly. This is perhaps why we have introduced a globally advanced curriculum.

Besides rigorous scholastic programmes, we seek to develop and nurture the different facets of a child. From academic to dance, theatre, music and a variety of sports, we focus on developing both, the mental and the physical abilities of a student. The activities provide holistic grooming to the student wherein the child is able to explore his true potential. Besides the usual procedural teaching, we persistently upgrade and update our teaching tools and techniques. From interactive teaching methods to a healthy teacher student relationship, we work around making studies as effortless as possible.

Today's India is an empowered, enlightened and enterprising nation. We wish to make it even more powerful with conscientious, smart and confident citizens who would make us proud of their multifaceted growth.

I sign off Wishing all the very best to my dear students in their forthcoming board examinations. May all of you pass the test with aplomb and keep the banner of RV flying high as always.

Your principal
Mrs. Rakhi Banerjee

Editorial

He that wrestles with us strengthens our nerves and sharpens our skill. Our antagonist is our helper. It is righteously said that our mind is our biggest enemy if we control it but it is our greatest asset once we start channelizing it's immense power and energy. As we bid adieu to 2018 and welcome 2019 with an euphoric heart and an ebullient mind, we are ready to face the hurdles head first and emerge victorious.

“Under the bludgeonings of chance,
My head is bloody, but unbowed,
I am the master of my fate;
I am the captain of my soul.”

While rejoicing all the bittersweet memories of the past year we are also looking forward to 2019. As the PUBG – fever is sweeping the world, India is also gearing up for the Prime Ministerial elections and the Cricket World Cup.

The legacy of excellence continued last year with Ayush Kumar getting the second rank in state in ICSE examinations with a whooping 98.2%. Further, 5 students of RV have aced the IIT-JEE successfully. We wish them luck for their future endeavors.

Bidding farewell to the seniormost – batch is undoubtedly striking a painful chord in our heart. But as they say, all good things eventually come to an end. We genuinely commemorate the memorabilia that all of us shared while looking forward to see them shine brighter and continue to bring this institution a sense of honor.

We also wish our best to the standard 10 and 12 students for the upcoming ICSE, ISC as well as several competitive examinations.

Yog-guru of RV

Yoga is a word we have been hearing of since our childhood. But what exactly is yoga?

It is a group of physical, mental, and spiritual practices or disciplines which originated in ancient India. Yoga is one of the six orthodox schools of Hindu philosophical traditions. There is a broad variety of yoga schools, practices, and goals in Hinduism, Buddhism, and Jainism. Now we have a student among us who has brought glory to the our school by not only mastering this art but also winning medals at some very high platforms. Anushka Karmakar the student of 8'D' has won medals not only in state and national level but also at international levels. She has won 4 gold and a silver in 8th Asian Yoga Federation-2018, she also stood first in each and every single event of National Yoga Championship-2018, State Yoga Championship 2018. The list

does not end here, she has also secured a first place in District Yoga Championship 2018 in Athletic Yogasana winning the title of Yoga Sundari-2018 along with a trophy. She has also showed her caliber in All India Open Yoga Championship-2018 Not only securing the 2nd place in Athletic Yogasana, became the Champion of the Champion-2018, along with a trophy and a cash price of Rs.11001/- . She has secured first prize in Artistic Yoga at Zonals and at Council’s National Yoga Championship-2018.

Alumni Meet

"The pain of parting is nothing to the joy of meeting again." Charles Dickens
With such thoughts, our school arranged an Alumni Reunion on 24th December in which the students of the 1994-96 batch were invited, along with the senior teachers who had taught them. It was very nostalgic for all of them to visit the school and meet their friends after such a long span of time. It was a proud moment for the school too to see their students prosper in their lives.
"School life is a memory to be cherished forever", were their words as they left with all smiles.

Why Is This Life So?

Life reminds me of, those days full of nonsense;
The days of beauty, the days of gaiety,
The days to rock and be rough and tough,
The days when I hated going to school,
The days when Mumma used to feed me with a spoon,
The days when Papa played with me and always wanted me to win,
It's hard to believe,
That how come they are just old memories now?
I wish I could go back in time,
And get a chance to go through my nursery rhyme.
I wish I were a kid again
Playing in the puddles, made by rain,
Life was so beautiful then,
Yet, we wanted to be grown up men.
It's not that today I am sad,
But yet, I am not so glad,
Innocence is no more within me,
Age is drying up life's tree.
Have to accept that truth,
That we are born and have to grow?
Why is this Life so???

Shruti Krity (9C)

Dear Best Friend

You left when I believed you would stay.
You left my side when I needed you the most.
You left me tearing my heart away.
But today, I am not
hearing any bad words for you,
except for having a promise:
To stay with you
A promise to put you first
A promise to fight for you
A promise to never cheat
A promise to always protect
A promise to never abuse you
Requesting you to come back again in my life
Requesting you to be mine again
Promising you to be your Jerry
Whenever you will get hurt I will surely say sorry.

Utkarsh (VIII 'A')

I Will Gaze At

I will gaze at the stars,
And maybe even Mars.
They are all so bright,

On a wonderful winter night,
Feeling the breeze,
Watching the trees
They're swaying the grace.

In this peaceful little place,
Time moves on, more and more,
It's getting colder than it was before,
People are sick and sneezing,
Because the weather is so freezing.

One of the prettiest times of year,
Winter season is finally here,
32 is the magical number,

For a while blanket as you slumber,
Yummy things like hot chocolate and cookies,
Fascinating season winter is,
With its beauty, peace and bliss.

You had already made your list,

You woke up and hope to find your wish,
You unwrap the box looked inside,
You saw how your wish and nearly cried,
Oh man how wonderful winter can be!
From the holidays to the scenery,

My favourite thing, however, I 'm having trouble deciding,

Everything is great and rejoicing.
- Rounak Joshi (VI 'D')

The Colours of Nature

My favourite colour is blue,
From that I got the clue.
His favourite colour is red,
Red always spreads.
She loves wearing t-shirts of the yellow,
We all say her hello.
The leaves are green,
I saw on the screen.
The vulture is grey,
Catching the prey.
The brinjal is purple,
Which is being eaten by the couple.
This is the orange,
Which I have arranged.
White is always right,
White is the best.

The Woman Inside Me

A wayfarer. Her spirits rides on does zephyrs of carefreeness.
Smoother Wavy tressed acquired from threads of sunshine and strips of moon light,
Speckled with stars and twinkling celestial features tumble over her eyes.
A sea of Blue Eyes brimming with zeal,
And waves of tears lapping on the Shore of beach.
Swirls of pain, streaks of lovely stories hidden inside every Dew drop the rolls on her cheeks.
Her Plump Cherry lips how many times soaked the taste of bitterness.
But with golden bangles that adorn her wrists,
A stain of corset trimmed with strings of glittering sequins dangling from her waist,

And the ring of lustrous beads of her anklets,
She has learned to dance on the rhythm of life
And hear the tunes of her throbbing heart.
Her bare feet softly reading a path of light
Emitted by the prism of her own dreams,
She has become nomad.
She drifts on the cloud of fantasies to chase her ambitions
and bask in the LimeLight of her desires. For the first time
in life she feels free.

Why Is This Life So?

Life reminds me of, those days full of nonsense;
The days of beauty, the days of gaiety,
The days to rock and be rough and tough,
The days when I hated going to school,
The days when Mumma used to feed me with a spoon,
The days when Papa played with me and
always wanted me to win,
It's hard to believe,
That how come they are just old memories now?
I wish I could go back in time,
And get a chance to go through my nursery rhyme.
I wish I was a kid again
Playing in the puddles, made by rain,
Life was so beautiful then,
Yet, we wanted to be grown up men.
It's not that today I am sad,
But yet, I am not so glad,
Innocence is no more within me,
Age is drying up life's tree.
Have to accept that truth,
That we are born and have to grow?
Why is this Life so???
